**Sizing Tips**

Use these tips as a general guide when finding your measurements:

1. Chest/ Bust: With your arms at your sides, measure around the fullest part of your chest, across shoulder blades and under arms.
2. Waist: To measure your natural waistline, wrap the tape so it intersects your navel. Keep tape flat, but comfortably loose.
3. Hips: Stand with your heels together and measure the fullest part of your hips, keeping the measuring tape level and parallel to the floor, front and back.
